SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicants bring to the attention of the Examiner the document listed on the attached PTO/SB/08 form. Applicants are filing this Supplemental Information Disclosure Statement (IDS) before the mailing date of a first Office Action on the merits for the above-referenced application, to the undersigned's knowledge at the time of filing. This IDS supplements the IDS filed on August 19, 2003.

Applicants attach a copy of the listed document. Applicants respectfully request that the Examiner consider the listed document and indicate its consideration by making appropriate notation on the attached PTO/SB/08 form.

The listed document was first cited in the attached Japanese Patent Office Action, issued in counterpart Japanese Application No. 2002-238198.

In lieu of a statement of relevance or full translation of the non-English document, Applicants enclose an English language translation of the Japanese Patent Office Action, citing and setting forth the relevance of the non-English document.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the listed document is material or constitutes "prior art." If the Examiner applies the document as prior art against any claim in the application and Applicants determine that the cited document does not constitute "prior art" under United States law, Applicants reserve the right to present the relevant facts and law to the Office regarding the appropriate status of the document.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed document, should the document be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
